

ΚΥΠΡΙΑΚΟ
ΕΜΠΟΡΙΚΟ ΚΑΙ
ΒΙΟΜΗΧΑΝΙΚΟ
ΕΠΙΜΕΛΗΤΗΡΙΟ

Λευκωσία, 26 Μαρτίου 2014

ΠΡΟΣ: Όλους τους ενδιαφερομένους

ΘΕΜΑ: Ενημερωτική Ημερίδα του CYS για τη διαχείριση της
Ενέργειας

Κυρία/ε,

Σας πληροφορούμε ότι ο Κυπριακός Οργανισμός Τυποποίησης (CYS) διοργανώνει ημερίδα με θέμα "Significant Energy Savings CYS EN ISO 50001" την Πέμπτη 10 Απριλίου 2014 και ώρα 9:30 π.μ. στην αίθουσα Ουνέσκο του Πανεπιστημίου Λευκωσίας.

Η συμμετοχή των επιχειρήσεων είναι δωρεάν. Συνημμένα θα βρείτε επιπρόσθετες πληροφορίες όπως και τη Δήλωση Συμμετοχής την οποία πρέπει να αποστείλετε στον CYS μέχρι τις 7 Απριλίου 2014.

Για περισσότερες πληροφορίες παρακαλώ επικοινωνείτε με τον CYS στο τηλέφωνο 22-411442.

Με εκτίμηση,

Ανδρέας Ανδρέου,
Αναπλ. Διευθυντής Τμήματος Βιομηχανίας,
για Γενικό Γραμματέα.

/ΜΚ.

CYPRUS ORGANISATION FOR STANDARDISATION

INFORMATIVE
SEMINAR

CYS EN ISO 50001

is proven to generate Significant Energy Savings !

— Learn how you can implement this best practice approach —

Date: **Thursday, 10 April 2014**

Time: **9:30 - 13:00**

Venue: **Unesco Conference Hall, University of Nicosia**

Entrance: **Free**

Since the publication of *EN ISO 50001 "Energy Management Systems – Requirements with guidance for use"* in 2011, implementation and certification to this standard is continually increasing worldwide. Join **CYS**, **Enerit** and **CP Envirosystems** to learn how **EN ISO 50001** delivers exceptional savings for international organizations and how your company can also achieve these savings. Organizations changing from a traditional project-based approach to a formal Energy Management System (EnMS) have been significantly rewarded for their efforts. In Europe, certification bodies have identified energy savings ranging between 6% and 37% in **EN ISO 50001** certified plants. In the US, Superior Energy Performance certified facilities have improved their energy performance by an average of 10% within the first 18 months of implementation, realizing an average payback of 1.7 years.

As organizations worldwide benefit from **EN ISO 50001**, this seminar will cover the following topics through examples and case studies:

- ☞ The benefits **EN ISO 50001** can bring to your organization
- ☞ The difference between **EN ISO 50001** and project based approach to Energy Management
- ☞ How an **EMIS** (Energy Management Information System) fits within an **EnMS**
- ☞ The step by step process in implementing systematic Energy Management for multiple sites
- ☞ How existing standards (**EN ISO 9001**, **EN ISO 14001**) can accelerate **EN ISO 50001** implementation
- ☞ How Energy Management is made more effective through automation and **ICT**

GUEST SPEAKER : DR. MIKE BROGAN

Mike Brogan is co-founder of **Enerit** and has been responsible for Energy and Environmental Management software projects for public sector organizations and multinational corporations throughout the world. Mike has a PhD in Mechanical Engineering from the National University of Ireland and is a member of the **ISO/TC 242** Energy Management committee for Ireland. His experience includes:

- Energy management in industry and buildings
- Management systems (**ISO 50001**, **ISO 14001**, **ISO 9001** and **OHSAS 18001**)
- Design of software solutions for these sectors and systems
- Delivery of software to organizations globally for almost 20 years.

Founded in 2004, **Enerit** is the second software company that Mike and the management team at **Enerit** have founded. **Enerit** is a leading ISO standards software provider to a global market place, with a specific focus on best practice Energy Management. Although widely utilized in organisations preparing for **ISO 50001** certification, **Enerit** is not limited to enterprises seeking certification and several clients utilize software solely with the objective of reducing energy consumption. Using an innovative way of working interface combined with powerful visualisations **Enerit** solutions facilitate competitive advantage: saving money and time, adding value and efficiency. **Enerit's** Energy Management software is used in banks, airports, universities, hospitals, industry, offices and hotel chains.
