---

Dear Members,

On the occasion of the launch of the [ICC Policy Primer on Cybersecurity](#), the ICC shares with you the latest episode of the [ICC Trading Thoughts podcast](#) released last Friday.

During the meeting the Lead of the ICC Working Group on Cybersecurity with ICC Trading Thoughts discussed the impact of cyber threats on business and society as well as some of the steps businesses and governments should take together to address these challenges.

Developed by the ICC Commission on the Digital Economy, the Policy Primer on Cybersecurity unpacks these topics in more detail and provides a starting point for developing future policy work and recommendations by ICC on the subject.

Both [primer](#) and [podcast](#) are now available.

Best regards,

Lia Riri  
Secretary  
Cyprus National Committee of the ICC
